Hand and surface Disinfectants
**Levermed**

For hygienic and surgical disinfection of hands

Levermed is a ready to use disinfectant for the hygienic and surgical disinfection of hands.

**Composition**

- n-Propanol IP 50%
- Iso-Propanol IP 20%
- Benzalkonium Chloride (50%) IP 0.5%
- Emollients

**Features and Benefits**

- Levermed is an alcohol-based solution and is used for the disinfection of hands.
- It inactivates Bacteria, Fungi, Spores and Viruses in 30 sec.
- It does not contain additives that can irritate the skin. It contains skin emollients to protect and care for the skin.

**Directions for Use**

**Hygienic hand disinfection**
Dispense 3 ml of Levermed into hands and spread thoroughly over both hands and wrists rubbing vigorously for 30 sec.

**Surgical hand disinfection**
Repeat the above procedure three times ensuring that all the areas of the hand are rubbed thoroughly and that a total contact time of 5 minutes with the disinfectant is maintained.

Virex II 256

Broad Spectrum Environmental Cleaner & Disinfectant

Virex II 256 is a high level disinfectant for disinfection of surfaces and critical instruments (which come in contact with the blood stream or normally sterile areas of the body, such as rigid and flexible surgical instruments) in healthcare application.

Composition

Didecyl dimethyl ammonium chloride : 8.7%
n-alkyl dimethyl benzyl ammonium chloride : 8.19%
Lauryldimethylamineoxide
Ethylene diamine tetra acetic acid sodium salt

Features and Benefits

• N-alkyl dimethyl benzyl ammonium & Didecyl dimethyl ammonium chloride
• Combination of most potent QAC’s - Broad spectrum kill
• Aldehydefreeproduct
• No negative occupational hazard - Eco friendly and user friendly
• Cleaner and disinfectant

Directions for Use

FOGGING:
Prepare 1% v/v solution (10ml of Virex II 256 in 1 litre of water) & transfer the solution in the fogging machine. Wet surfaces of tiled walls, trolleys, Operation tables & floors evenly. Close rooms & allow to dry for 1 hour.

InstrumentDisinfection: Use10% solution (1OOm1n 1 litre)
High Level Disinfection – Soak completely inside the Virex II 256 solution. For semi-critical instruments disinfection, 30 minutes of contact time is required.
