Thermo Scientific  
SureTect Real-Time  
PCR System

# It's better to be sure

Now, you can perform every food safety test confidently with the **Thermo Scientific™ SureTect™ Real-Time PCR System**. Built on proven PCR technology and backed by world-class service and support, the SureTect™ System is designed to quickly and accurately detect microorganisms in a broad range of foods and associated samples. This unique solution combines speed and performance in an easy-to-use, cost-effective platform—giving you results you can be sure about.

# It's easy to be sure

At Thermo Fisher Scientific, we understand microbiologists. We know that you need fast, reliable molecular technology to get through the day-to-day challenges. That's why we continue to invest in bringing you complete solutions, like the SureTect Real-Time PCR System. If you want high quality results without the stress, all it takes is three simple steps.

1.

## Prepare

Reduce hands-on time and eliminate variance with pre-filled assay tubes, and fast, simple lysis in less than 20 minutes

## Run

Up to five 24-well PikoReal instruments can be run from the same PC, to accommodate laboratories of all sizes

2.

3.

## Read

Intuitive software enables rapid, straightforward interpretation and traceability of results

## Why choose SureTect?

### Single enrichment step

no secondary enrichment or regrowth required, for faster, simpler testing

### Pre-filled lysis tubes

for maximum convenience and reliable, consistent cell lysis

### Tableted PCR reagents

eliminates PCR reagent pipetting, to enhance reproducibility and minimize hands-on time

### Streamlined protocol

facilitates processing of multiple assays in the same run, for maximum efficiency

### Simple, intuitive software

for straightforward training, quick set-up, and simple tracking of results

### Automatic data interpretation

reliably reports test results as positive or negative

## Unmatched service & support

Thermo Fisher Scientific experts have been supporting the global microbiology community for over 150 years. Our service and support teams are comprised of highly-experienced scientists who are devoted to offering best-in-class technical support.

Our focus on providing quality products, on-time delivery and superior support is matched by our commitment to provide complete solutions that meet your microbiological testing needs.
